### Lay Delegates.

Last night an adjourned meeting of the male members of Ryland Chapel was held for the purpose of taking into consideration the propriety of sending representatives to the Philadelphia Convention, which is to meet in March next, to take into consideration the subject of a lay delegation in the annual and general conferences. The proposition to send representatives was rejected by a large majority, and a resolution adopted expressing satisfaction with the present discipline and form of church government. After prayer, the meeting adjourned in brotherly love.—*Washington Tel.*

**A Valuable Acquisition.**—The Rochester N. Y. Theological Seminary has recently purchased the rare and valuable library of the late Dr. N. A. ANDER, of Germany. The number of volumes, &c. amounts to 4,600—and the cost of the purchase was \$2,300.

The people of Indiana are petitioning their legislature for the passage of a law which shall provide that the wife, and all others injured by the sale of intoxicating liquors, may maintain an action against the vender who furnishes the liquor.

The London Gazette announces the appointment of Lord Crampton, Minister to the United States, and Sir Edward Bulwer, Minister to the Court of Tuscany.

**Humanity.**—A few mornings since, a girl while washing the outside of a front window, in one of the finest houses on Penn street, slipped and fell upon the pavement below, a distance of eight or ten feet. When she had lain there a few minutes, one of the gentler sex belonging to the house appeared on the high steps near, and instead of hastening down to her assistance, went back, obtained a cane, and handed it down to her! With this the unfortunate girl managed to get into the house. About the same time another, we presume of the gentler sex, put her delicate head out of a window above and remained a dignified spectator of the scene below. These facts need no comment.—We would only recommend them to the attention of unfeeling people—who, regardless of the comfort, health, or even life of their girls, compel them to stand on the outside of their windows to scrub, during the coldest days of winter. Those who are too full of pride—mean selfish pride—to extend a hand of sympathy to the unfortunate, we do not expect to benefit by arresting their attention to facts like the above.—*Pitt. Dispatch.*

**The New Minister from Great Britain.**

It is officially announced that the Honorable John F. Crampton has been appointed Envoy Extraordinary and Minister Plenipotentiary from Great Britain to the United States, instead of Sir Henry I. Bulwer, who has accepted the appointment of Minister at Florence.—*Nat. Intelligencer.*

The tariff Resolutions of the New Jersey Legislature, asking for additional duty on coal and iron, was passed in the House on Wednesday, by a vote of 43 yeas and 14 nays; 29 Democrats voting for it and 14 Whigs. The nays were all Democrats.

**PROPOSED LOAN OF ARMS TO HUNGARY BY ONTO.**—A resolution is before the Senate of Ohio, authorizing the Governor to loan all the undistributed arms and materials of war belonging to the State to Kossuth to be returned after the restoration of Hungarian liberty. After a warm vote, it was referred to a committee of the members generally doubted power to make the proposed loan.

**STRESSING CASE OF MENTAL DEBRANCE.**—A Washington letter, dated Jan. says: Charles C. Walker, the celebrated astronomer, and by large odds the most distinguished mathematician in our country, has been deranged. Night before last, whilst engaged in his labors, he made a display, by which Logarithms are rendered in mathematical calculations. The patient was excited and followed, and he neither slept nor conversed. He continued in this condition until yesterday when, when his glorious mind gave way, he hoped that the misfortune may be temporary but the worst is feared.

A child, five months old, was so horribly bitten and mangled by a hog, at Thomastown, Md., the other day, that no hopes of its recovery are entertained.

Captain Hoff, of White Plains, an old gentleman of eighty five, was choked to death, last week, "attempting to swallow a large piece of beef."

Here is a street picture as good as a play! The absent order of the Intelligence writes from Baltimore:—

"A novel and certainly very interesting exhibition took place at Carroll Hall this morning. It was advertised in the paper that two thousand leaves of broad would be distributed there gratuitously by the celebrated company of New Orleans Serenaders. About nine o'clock the applicants for thus commenced congregating. Very soon the large hall was filled, and an immense crowd outside. All ages, sexes, sizes and colors composed the throng. Hundreds assembled to look on. It was really pleasing to observe the half-starved, infirm, halt, and poverty stricken, as they went off rejoicing, with bright smiles on their countenances, and a loaf of bread under their arm. I never supposed so much poverty and misery could possibly exist. Old women and young girls, boys and men, all came up together to get their allowance. A king on his throne could not have evinced more happiness of countenance than was depicted on the faces of those who came out smiling with their solitary loaf!"

The want of the gentler sex in California is expressed in the following business report:—"Females are earning from \$40 to \$100 per month in the cities of the Pacific, and husbands are as plenty as flies in a sugar hoghead!"

There are tidies of air as well as of water. Prof. Rogers in a Lecture before the Smithsonian Institute, said:—"By discoveries recently made, particularly at St. Helena, it has been found that there is a tidal movement in the air, in obedience to the movements of the moon, answering to the tides of the ocean, and pointing its apex to that luminary, thus serving to illustrate, in another aspect, the sublime simplicity of nature's laws."

In a DILEMMA.—We were much amused by an incident which a friend of ours related to us the other day. A gentleman who had been absent for a considerable time, and who, during his absence had raised a pretty luxuriant crop of whiskers, mustaches, &c. visited a relative, whose child—an artless little girl of five or six years—was very fond of. The little girl made no demonstration towards saluting him with a kiss, as usual.

"Why, child," said the mother, "don't you know your uncle Hiram! Why don't you give him a kiss!"

"Why, ma," returned the little girl with the most perfect simplicity, "I don't see any place!"

De Potter, the Belgium patriot, wrote a pamphlet twenty years ago, "On the manner of conducting a revolution so that no after revolution shall be necessary." Louis Napoleon has probably read this pamphlet.

Col. James Kennon, of Westmoreland, has been appointed Adjutant General of the State by Gov. Bigler. Col. K. well deserves this mark of favor at the hands of the Governor. **RIVER REPORTER.**

Port of Morgantown.

ARRIVED.

Feb. 13.—Steamer GLOBE, from Brownsville; freight principally for ports below.

Feb. 13.—Steamer THOS. P. RAY, from Brownsville with 7 through passengers. Freight: 6 doz. Buckets, 1 lot Jars, portable grist mill, 8 bags cloverseed, 3 tons pig metal, 2 bls. molasses, 1 lot coffee, 2 boxes confectonaries, 1 package, 20 bls. whiskey, 10 bls. salt, and 1 lot household furniture, family on board, moving.

DEPARTED.

Feb. 14.—GLOBE for Brownsville, with Irish emigrants for Steubenville, Ohio.

Feb. 14.—THOMAS P. RAY, for Brownsville, with several cabin passengers and Irish emigrants.

These two boats were very equally matched for power and speed.—On Saturday morning last they backed out together into the channel, and in "rounding to" the RAY got the heels of the GLOBE, when a "snort" from the RAY's whistle proclaimed that she intended, if possible, to keep her position in advance, during the down trip. The Globe, from her shrill whistle screamed defiance, and pushed ahead as though she saw a ray of hope in the distance, but from the way the former glided round the bend we judge that the only ray she saw, was the one with a stern wheel, puffing and howling just ahead of her.—"We do not know how they 'made it,' or whether the race was kept up all the way through, but if it was, it was warmly contested, and neither had much to boast of. The scene was quite animated—the unusual whistling drawing a great many spectators to the river shore.

## WISTAR'S BALSAM OF WILD CHERRY.

WISTAR'S BALSAM OF WILD CHERRY imparts new vigor to vital action, and relieves the system by opening the pores of the skin, and promoting the secretion of mucous matter. Its action is soothing, sedative, and expectorant, by opening the pores, allaying irritation and by rendering the expulsion of mucous matter easy.

Those who take the Balsam will feel immediate relief from the distressing irritations that accompany affections of the respiratory organs. The pores have been closed, the Balsam opens them. The lungs suffer from irritation, the irritation is soothed; the pulse is violent and feverish, they are softened, and the mucous membrane is relieved of its engorgement with rapidity and ease—all by the use of this delicate remedy.

## Sheriff's Sale

**OF VALUABLE REAL ESTATE.**

PURSUANT to a decree of the Circuit Court of Preston County, rendered at its Fall Term, 1851, in the cause of George M. Haggett & Co., against Hunter Bros., I, William Elliott, Deputy Sheriff for John Elliott, Sheriff of Preston county, will, on

2d Monday of March, 1852, Sell the Land in the bill and proceedings mentioned, (being a Tract of Land containing 75 Acres, lying in Preston county, near the farm of Major Wm. H. Zinn and Col. Geo. W. Fairfax,) before the front door of the Court House in Kingwood, to the highest bidder, upon a credit of 6 and 12 months, taking of the purchaser bond and sufficient security, with interest from the day of sale. If, however, a less quantity than the whole of said tract of land shall be found sufficient to satisfy said decree, I shall only sell such portion. The title to said land will be retained until the purchase money is paid.

## WISTAR'S BALSAM OF WILD CHERRY.

THE BEST REMEDY EVER KNOWN TO MAN For Coughs, Croup, Whooping Cough, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, pain or weakness of the Breast or Side, first stages of Consumption &c.

This Balsam is peculiarly adapted to every disease of the Lungs and Liver which is produced in our ever-varying climate.

**WILD CHERRY HAS LONG BEEN** known to possess important medicinal properties. This fact is familiar to every man in our land, and physicians often prescribe it in different forms for a variety of complaints. It is also, has been equally noted for its virtues, and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, again, it was nearly valueless, owing, no doubt, to their ignorance in preparing and administering it—a difficulty now entirely and forever obviated by patient experiment and long experience.

The extraordinary medicinal powers of these two substances are now, for the first time, combined and embodied in DR. WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process, every thing deleterious or useless is rejected, so that what remains is a pure, most extraordinary and truly efficacious remedy for all kinds of pulmonary and liver diseases ever known to man. To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine:
